

THE WESLEYAN CHURCH & COVENANT EYES

The Wesleyan Church is partnering with Covenant Eyes to equip local churches with the Five Stones program—a resource designed to help congregations foster healthy, Christ-centered digital habits.

Each Five Stones kit includes printed materials, digital tools, and audience-specific resources tailored for men, women, couples, families, and church leaders. Churches can use these tools to support individuals privately and effectively.

Pastors may also take advantage of discounted Covenant Eyes accountability software through this partnership.

Free kits and additional details are available directly from ECD or The Wesleyan Church's outreach specialist
